

Globe Discovery Seminars on Tour

Turf Managers throughout Australia will have the opportunity to attend seminars with presentations from leading US and Australian turf authorities. Globe Australia have put together the Discovery Seminar tour with the theme of discovering new information on the future of turf management practices. The speakers on this tour include –

Mica Mc Millian, International Senior Research Agronomist, Aquatrols USA.

“Surfactant technologies in the Management of sporting surfaces.”

Rich Christ, International Sales Manager, The Andersons USA.

“Dispersible Granule Technology for Turfgrass Nutrition.”

Dr Henk Smith, Technical Product Manager, Syngenta

“New developments in disease prevention and weed control.”

Paul Jackson, Business Manager, Barmac.

“ Trace Element Management for Turfgrass”

Jyri Kaapro, Research Manager, Bayer Environmental Science .

“The future direction of plant protection”

Peter Frewin, Senior Turf Consultant, Globe.

“The real costs of turf maintenance”
